1      Albuquerque, New Mexico; Tuesday, October 27, 2015; 10:20 a.m.

## Call to Order

3                   **THE CLERK:** The *United States of America versus Davon*  
4 *Lymon.*

5 MR. WISHARD: Jake Wishard for the United States.

6                   **MR. ROBERT:** Good morning, your Honor, Marc Robert  
7 for Mr. Lymon who is present in custody. We are prepared to  
8 proceed with the Preliminary hearing.

9                           **THE COURT:** Okay, good morning. Good morning,  
10 Mr. Lymon.

11 | THE DEFENDANT: Good morning, your Honor.

12                   **THE COURT:** All right. I guess we will proceed at  
13 this time. Are you ready to proceed?

14                   **MR. WISHARD:** Yes, your Honor. My witness is here.  
15 I -- if the Court will allow us I'd like you just to adopt his  
16 Probable Cause Statement in the Criminal Complaint and then  
17 pass the witness to Mr. Robert. If the Court wishes me to walk  
18 him through the Complaint on a Direct exam I'm happy to do that  
19 as well.

21 MR. ROBERT: Either way is fine with me, your Honor.

22                   **THE COURT:** Okay. Well, if there is no objection to  
23 the Court allowing the Government to proffer the Probable Cause  
24 statement that's attached to the Complaint and you proceeding  
25 directly to Cross Examination, I'm prepared to adopt that.

1                   **MR. ROBERT:** No objection to that procedure, your  
2 Honor.

3                   **THE COURT:** Okay.

4                   **MR. WISHARD:** The United States calls Task Force  
5 Officer Derek Wright.

6                   **THE CLERK:** Please raise your right hand.

7                   **DEREK WRIGHT, GOVERNMENT'S WITNESS, SWORN**

8                   **THE WITNESS:** Yes, ma'am.

9                   **THE CLERK:** Can you please have a seat, state your  
10 name and spell your last name for the record?

11                  **THE WITNESS:** My name is Derek Wright, the spelling  
12 of the last name W-R-I-G-H-T.

13                   **CROSS EXAMINATION**

14                  **BY MR. ROBERT:**

15 Q Tell us what you do for a living?

16 A I am a police officer with the Albuquerque Police  
17 Department. I have been working there since January of 2006.  
18 I have been assigned to the ATF Task Force for a little over  
19 three years now.

20 Q All right. And since we -- we're going to do this by way  
21 of a proffer, basically your Direct Examination will have been  
22 the Probable Cause Statement that's been filed in the Court  
23 already.

24                  You are the person who signed and swore to this  
25 Affidavit?

1 A Yes, sir.

2 Q Would you tell me a little bit about how you became  
3 involved in this case?

4 A The evening of October 21st I was notified by phone that  
5 there was an officer that had been shot in the southeast area  
6 of Albuquerque. I responded to that area, as well as numerous  
7 other officers. I was near Eubank and Lomas for an extended  
8 period of time.

9 The local SWAT teams were all conducting their  
10 searches and we were all there just in case they needed us for  
11 -- to check other locations or what had happened, and shortly  
12 after, I guess it was midnight, I was made aware that an arrest  
13 had been made and I responded to the area of Central and Eubank  
14 where I was advised the subject that was in custody was  
15 Mr. Lymon.

16 I conducted a Criminal History query, found out he  
17 does have two felony convictions. The firearm was recovered in  
18 a block -- about a block and a half north of where the shooting  
19 had occurred, and we queried and that firearm was found to not  
20 have been manufactured in New Mexico affecting interstate  
21 commerce. He is a convicted felon.

22 When Mr. Lymon was taken into custody he was still  
23 wearing a handcuff on his left wrist which, after viewing the  
24 lapel camera video, Mr. -- the subject that had been arrested  
25 by Officer Webster before being shot was handcuffed on his left

1       wrist, and I then completed a Criminal Complaint against him.

2   Q     All right. You were not involved in the processes by  
3 which Mr. Lymon was taken into custody?

4           In other words, you weren't part of the teams that  
5 were trying to locate him and place him in custody?

6   A     Correct, I was not.

7   Q     Were you a part of any of the effort to locate the  
8 firearm?

9   A     I was not, no.

10   Q    All right. Have you been a part of any of the examination  
11 or any testing that was done with respect to the firearm?

12   A    No, sir.

13           **THE COURT:** I'm sorry, can I -- I need you-all to  
14 keep your voices down. Could you please move over to that end  
15 of the pew and keep your voices down. Thank you. All right,  
16 go ahead, I apologize.

17           **MR. ROBERT:** No problem, your Honor. Thank you.

18   **BY MR. ROBERT:**

19   Q     You mentioned a lapel cam. This would have been Officer  
20 Webster's lapel camera?

21   A     Yes, sir.

22   Q     Were there any other recordings that you are aware of that  
23 were made relevant to the events of that evening?

24   A     There were numerous recordings made by officers either  
25 responding, there was the helicopter video from their infrared

1 camera. The helicopter, while traveling around, did observe a  
2 male subject jumping over fences and into the area. The SWAT  
3 teams came in and located the subject they had seen, which was  
4 Mr. Lymon.

5 Q All right, do you know if there was -- what vehicle was  
6 Officer Webster driving? Was it a car or motorcycle?

7 A Officer Webster?

8 Q Yes.

9 A He was in a marked patrol car.

10 Q Okay. Was there a dash cam in that car?

11 A I don't believe there's dash cam in there, sir. I haven't  
12 heard anything about that.

13 Q All right. You said that the firearm was located about a  
14 block and a half away from where the shooting occurred?

15 A Well, just -- just north of Central and -- Eubank and  
16 Central in the Walgreens, 10300 Central.

17 Q Okay.

18 A Just north of that is a street called "Glorietta" runs  
19 north-south, and it was located in the 100 block of Glorieta in  
20 a vacant lot.

21 Q In a vacant lot. Are there any structures on that lot at  
22 all?

23 A I -- I was not there to collect it; I was advised it was a  
24 vacant lot.

25 Q Okay.

1 A There are some -- there's a gas station on the east side  
2 of Glorieta at Central. There are some houses as you go  
3 farther north. There's sporadic lots that are available.

4 Q All right. Okay. I'd like to ask a little bit about the  
5 timing of things.

6 When did the call come in that there had been an  
7 incident?

8 A Shortly before 8:00 o'clock.

9 Q Okay. When did you arrive on the scene?

10 A It must have been 9:00 -- 9:00 o'clock, 9:30.

11 Q Okay. Do you know when -- you talked about aerial  
12 surveillance. When did that begin, do you know?

13 A I do not know when the helicopter arrived or was called  
14 out yet, I'm still gathering information from the police  
15 department as to all of their dispatches and things like that.

16 Q Was it minutes or hours, do you know?

17 A It probably was not hours. I'm sure they were notified  
18 within minutes that they needed to get in the air and help  
19 assist searching for the subject.

20 Q I am assuming that there are recordings from the  
21 helicopter that would probably include time notations, is that  
22 right?

23 A Yes, sir.

24 Q Okay. But you're not aware of the time at which those  
25 things took place?

1 A No, I do not know.

2 Q All right. How long after the incident was Mr. Lymon  
3 taken into custody?

4 A Probably had been four hours. I think he was finally  
5 taken into custody between 11:30 and 12:30, so three and a  
6 half, four and a half hours, somewhere in there, sir.

7 Q What was the location in which that occurred?

8 A 120 Espejo northeast, which is about a block over to the  
9 west, excuse me, from where the firearm was recovered.

10 Q All right. I want to talk a little bit about the firearm.  
11 One of the things that's included in the Statement of Probable  
12 Cause is that the gun was not test fired --

13 A Right.

14 Q -- because ballistics were still pending?

15 A Correct.

16 Q Were there any other tests that were performed on the  
17 firearm obviously pending the ballistics study?

18 A Right. No, there was no other tests performed. Some of  
19 the ammunition that was recovered at the scene was three rounds  
20 of Winchester and three rounds of Perfecta. Those rounds of  
21 ammunition had been expended, they had been fired.

22 When the firearm was recovered they found a round of  
23 Perfecta ammunition in the chamber which is the same ammunition  
24 that was recovered at the scene.

25 Perfecta is not a real common round of ammunition,

1 it's fairly new so we don't run into it a lot.

2 Q All right. But, obviously, we don't have results from  
3 ballistics?

4 A Correct.

5 Q So the only thing we know is that it's the same brand that  
6 you -- of which you found three shells at the site of the  
7 shooting and there was one of the same brand in the firearm --  
8 in the magazine?

9 A Correct.

10 Q How many rounds were in the firearm including the  
11 magazine?

12 A I did not manipulate it. We were letting -- or no one  
13 manipulated it on the scene, we let the criminalistics folks  
14 from A.P.D. take care of that part.

15 Q Have you been keeping in touch with the progress of the  
16 investigation?

17 A I have and they are still just going through all of their  
18 items. I have made numerous requests, I'm just waiting for the  
19 information to come.

20 Q All right, so you have received no information --

21 A Correct.

22 Q -- about any of those things with respect to the firearm?

23 A Correct, I have not.

24 Q Okay. Do you know if the firearm was tested for  
25 fingerprints?

1 A I do not know.

2 Q Okay. That would be something, I'm sure, you're going to  
3 continue to follow up on?

4 A Yes.

5 Q All right. Do you know if any tests were performed on  
6 Mr. Lymon?

7 A Yes. I obtained a search warrant for Mr. Lymon's DNA and  
8 it was served when he was released from the hospital on  
9 Saturday at the Albuquerque Police Station at the main. They  
10 -- a field investigator arrived. I was there and I showed him  
11 his warrant. They obtained the buccal swab samples and they  
12 were transferred to the Criminal Crime Lab for analysis.

13 Q All right. How about gunshot residue? Was that tested?

14 A I don't believe so. I have not heard if they did.

15 Q Okay. Is that something that's still done at all by  
16 A.P.D. or ATF?

17 A I have not heard of it being done.

18 Q Okay. You mentioned that there was a lapel camera  
19 recording from the officer's lapel cam.

20 Was there anything -- have you viewed that recording?

21 A Yes, sir.

22 Q Is there anything on that recording that shows the face or  
23 any other identifying characteristics of the person that was  
24 involved in that incident?

25 A Only that the left hand was handcuffed. There is -- the

1 subject is wearing a helmet, Mr. Lymon, and there's a female in  
2 the back seat and she had fled. The lapel camera states -- the  
3 officer is saying "There's the male subject running north" when  
4 they arrived, meaning north -- they were north of Central into  
5 the neighborhood where the firearm was recovered and Mr. Lymon  
6 was arrested, but you could not see a face or anything like  
7 that.

8 Q Okay. How much of the -- of that subject is visible on  
9 the lapel cam?

10 A Of?

11 Q Of the person who was involved in the incident?

12 A Oh, probably from midriff up.

13 Q Do you know how long after the call went out from Officer  
14 Webster until other officers arrived on the scene?

15 A Probably two minutes I would estimate.

16 Q And your testimony is that some of those officers observed  
17 a subject running away from the scene of the incident?

18 A Correct, I could see them and hear them on the lapel  
19 camera pointing north as Officer Webster was laying on the  
20 ground. His lapel camera is looking up and there is an officer  
21 on his radio calling out "The subject is running north" and  
22 then they're making radio dispatch transmissions.

23 Q All right. I'd like to ask a little bit about the  
24 handcuff.

25 You indicated that, of course, as you just said, the

1      lapel cam indicated that there was a handcuff on the subject at  
2      the scene of the shooting.

3      A      Correct.

4      Q      And that there was a handcuff that was found on Mr. Lymon  
5      when he was arrested.

6                Is there any way of identifying a pair of handcuffs  
7      within the great number of handcuffs that's available to  
8      A.P.D.?

9      A      There -- the Peerless handcuffs, apparently they found  
10     Peerless handcuffs, I was advised, and they have serial  
11     numbers. The serial numbers from the manufacturer are sent to  
12     various, you know, outlets where you can buy them. This  
13     specific set that was located -- or found to have been  
14     transferred to Neve's, it's like a police store you can buy  
15     things out of above San Mateo.

16               This handcuff had gone to Neve's, and this  
17     information just came out yesterday from the police department,  
18     and from there we're still determining if it was in a lot of  
19     handcuffs that was transferred to the Albuquerque Police  
20     Department or not.

21     Q      Okay. So does A.P.D. buy handcuffs from Neve's and other  
22     local outlets?

23     A      Yes, sir.

24     Q      Okay.

25     A      And officers buy their own as well.

1 Q All right. Within A.P.D. is there a way of identifying a  
2 pair of handcuffs as having been issued to a particular  
3 officer?

4 A No, they're no longer -- they don't keep the serial  
5 numbers.

6 Q Okay, so there is no way of knowing who that particular  
7 serial number went to within A.P.D.?

8 A Correct.

9 Q All right. One of the things that's mentioned in the  
10 Statement of Probable Cause is that a perimeter was established  
11 once enough officers got there to do that?

12 A Correct.

13 Q Could you describe the outline of the perimeter for us?

14 A It's north of -- from Central north, probably two blocks,  
15 I would imagine, to Chico, and then from Eubank five blocks  
16 west. I don't know what the fifth street west of Eubank is.

17 Q How do you maintain a perimeter that size? That's a lot  
18 of real estate.

19 A There's officers that responded from all of the local  
20 agencies, as well as different area commands as soon as the  
21 call went out, and they sit on every corner of every block.

22 Q All right.

23 A And --

24 Q Are you aware, based on your review of whatever you have  
25 reviewed in this case, how long it took A.P.D. or all of the

1 law enforcement responders to establish that perimeter?

2 A I don't know that time, I know it was very quickly that it  
3 was established. That's what I have been told, it was -- all I  
4 have been told is that it was set up right away.

5 Q Okay. That seems like it would take a while to assemble  
6 the necessary personnel to do it. I mean, it wouldn't happen  
7 within two minutes of the call going out, I would say maybe  
8 within 30 minutes?

9 A It would be done faster than that.

10 Q Okay.

11 A These officers do it every day. They're setting up  
12 perimeters in different area commands, they know where to go  
13 and what to do.

14 Q All right. Can you tell us anything about the condition  
15 of the officer?

16 A Currently he's still in critical condition, they are  
17 stating he still is stable.

18                   **MR. ROBERT:** Your Honor, could I have a moment,  
19 please?

20                   **(Pause)**

21 Q Do you know whether there was any video recording or any  
22 other kind of recording that was collected from businesses or  
23 other possible sources of video within the area of the  
24 incident?

25 A I was told the Walgreens video had -- they had a camera on

1 the southeast corner of the building and it's pointed to the  
2 north and east, which is where Officer Webster conducted the  
3 traffic stop. And that video apparently has some obstructed  
4 views. I've requested that as well and have not yet received  
5 it.

6 Q Okay. Would it go directly to you or to somebody else in  
7 APD?

8 A It would -- APD would get it, and then I would have to  
9 gather it from them.

10 Q All right. Do you know of any other source of video? Are  
11 there any other businesses or even governmental city cameras  
12 anywhere within the vicinity of all of this happening?

13 A I had asked. There is a camera on the southeast corner of  
14 Eubank and Central that's, like, a DOT street camera up in the  
15 air, and I was told it does not record; it's only a live feed.  
16 But that is all I am aware of.

17 Q Who monitors that live feed; do you know?

18 A I have no idea, sir.

19           **MR. ROBERT:** All right.

20           That's all, your Honor. Thank you. I'll pass the  
21 witness.

22           **THE COURT:** All right.

23           //

24           //

25           //

1                   **REDIRECT EXAMINATION**2                   **BY MR. WISHARD:**3       Q     Officer Wright, after the defendant was arrested, did he  
4     make any statements you're aware of?5       A     Well, when I transferred Mr. Lyman to court yesterday  
6     morning for his initial appearance, while in the back seat of  
7     the patrol car, we were traveling southbound on I-20 -- 25 at  
8     Paseo, and he did ask myself and Task Force Officer Hernandez  
9     how the officer was doing.10      Q     Did he make any statements on Saturday when he was  
11    released from the hospital?12      A     He made a statement to the -- to -- after his DNA had been  
13    collected, the two uniformed officers, as we were going to get  
14    ready to transport him, were in the interview room, and  
15    Mr. Lyman asked how the officer was doing.

16      Q     All right.

17      A     Something to that effect.

18                   **MR. WISHARD:** Thank you.19                   **THE COURT:** Do you want to make any argument?20                   **MR. ROBERT:** There are gaps in this. It was several  
21    hours between the time of the shooting and the time that  
22    Mr. Lyman was apprehended. Obviously, the handcuff is an  
23    issue, but because of the lack of the ability to trace it from  
24    one office to -- from the source to the officer to this  
25    incident, it's -- I think raises at least a question mark about

1 the providence of the handcuff.

2           We don't have any information that ties Mr. Lyman to  
3 the handgun other than that it was found within some blocks of  
4 the vicinity in which the shooting took place and the vicinity  
5 in which hours later Mr. Lyman was apprehended. We don't have  
6 the results of any testing, and we don't know very much about  
7 the gun at all. In other words, was the magazine full? Was it  
8 not? Was there any indication that the gun had been discharged  
9 recently? Because I understand that's something that can be  
10 tested for as well.

11           I recognize that probable cause is a low standard,  
12 your Honor, but I do believe that there are significant gaps in  
13 the knowledge that we have about this case at this time. Those  
14 gaps may be filled at some point, but the answers to those  
15 questions remain open. And I would ask your Honor to consider  
16 that in determining whether there is probable cause.

17           **THE COURT:** Okay. All right. Well, I've  
18 considered -- and you're excused, by the way.

19           **THE WITNESS:** Thank you.

20           **THE COURT:** Any objection to me excusing the officer?

21           **MR. WISHARD:** No, your Honor. Thank you.

22           **MR. ROBERT:** No, your Honor.

23           **THE COURT:** Okay.

24           **(Witness stepped down)**

25           //

1                   **THE COURT:** All right. Well, I have considered  
2 Officer Wright's testimony today, as well as his probable cause  
3 statement, because the defense has agreed to accept that as a  
4 proffer for the Court's consideration of probable cause. And I  
5 find that based on all of the information before me that there  
6 is probable cause to support the charge in the criminal  
7 complaint. As, Mr. Robert, you aptly recognized, the probable  
8 cause standard is quite different from the proof at a criminal  
9 trial, and there is probable cause based on all of the evidence  
10 that supports the charge in the criminal complaint against  
11 Mr. Lyman.

12                  So, having probable cause -- having found probable  
13 cause to support the charge in the criminal complaint, do you  
14 wish to proceed now to the detention hearing?

15                  **MR. ROBERT:** Yes, your Honor.

16                  **MR. WISHARD:** Yes, your Honor.

17                  **MR. ROBERT:** Your Honor, I've received the Pretrial  
18 Services report, which consists of a listing of criminal  
19 history. One glaring thing about that history is that the  
20 majority of the things reflected on that history are nolle  
21 prosequi or dismissed. There is -- there are several cases  
22 which have either been dismissed or are currently pending that  
23 arise from the same incident on December 14th of last year. I  
24 know that this is a matter -- let's see; there are -- one, two,  
25 three -- four different cases that relate back to that date,

1 all of which have been dismissed. One of the -- one of the  
2 entries reflects that the case is to be presented to the grand  
3 jury, but after nearly a year, obviously, that hasn't happened  
4 yet.

5 The point is that there is a fairly limited criminal  
6 history. Obviously, there is a conviction of significance back  
7 in 2001 for which Mr. Lyman served a significant time in the  
8 Department of Corrections and was paroled in May of 2011, four  
9 years ago. There is nothing in that criminal history that  
10 suggests that Mr. Lyman is a flight risk.

11 There -- obviously, the nature of the current  
12 offense -- well, the current offense charged is felon in  
13 possession of a firearm. Although the back story on this  
14 matter is -- is alarming, the charge here is felon in  
15 possession of a firearm. And, so, the nature of the current  
16 offense, notwithstanding other allegations, which may or may  
17 not yet be presented against Mr. Lyman, is relatively minor.  
18 He faces a 10-year maximum penalty on that charge.

19 Again, the criminal history does not suggest a risk  
20 of flight. And the danger, then, is limited to essentially  
21 what is alleged in a broader sense in this whole context. I  
22 would submit, your Honor, that release to a halfway house could  
23 accommodate any concerns about -- about flight risk and about  
24 danger to the community. Being placed in a structured  
25 environment, being required to follow the rules of the halfway

1 house, and abiding by whatever other conditions the Court  
2 imposes I believe would adequately resolve any concern that the  
3 Court might have with respect to flight risk or danger, and I  
4 would ask your Honor to consider releasing Mr. Lyman to  
5 La Pasada.

6           **THE COURT:** Does the Government wish to be heard?

7           **MR. WISHARD:** Yes, your Honor. Thank you.

8           Your Honor, there are a dearth of convictions, but  
9 there are many, many arrests. In fact, every year of the  
10 defendant's life from the age of 13 to present, every single  
11 year and sometimes multiple times a year, he has come into  
12 contact with and been arrested by law enforcement. The only  
13 gap in his criminal history was the 10 years he spent in the  
14 New Mexico Department of Corrections.

15           Also concerning is there are two instances, one in  
16 which he was charged with escape and one in which he failed to  
17 appear for a court sentencing -- or a court hearing. We don't  
18 have the details on that.

19           Finally, your Honor, after his release from prison  
20 and beginning in the year 2012, the violence and frequency of  
21 his offenses has increased, and it crescendoed last Wednesday  
22 when he attempted the murder of a police officer here in  
23 Albuquerque. While those charges have not been filed, the  
24 cross reference under felon in possession of a firearm would  
25 refer the sentencing court to attempted first degree murder and

1 would come in at the very top of the guidelines. In fact, it  
2 would exceed the guideline sentencing chart. Those charges  
3 have not yet been filed with state court, but they include  
4 attempted murder, assaulting a police officer, aggravated  
5 assault with a deadly weapon, and a firearm enhancement. The  
6 United States is keeping the felon in possession; it would also  
7 include tampering with evidence and a slew of lesser crimes.

8                   For all these reasons, your Honor, we think that he  
9 is very much a danger to the community and a flight risk, and  
10 we concur with the recommendation of Pretrial Services that  
11 there are no factors that can be fashioned to ensure his future  
12 appearance in court and the safety of the community.

13                  **MR. ROBERT:** May I respond briefly, your Honor?

14                  **THE COURT:** Yes.

15                  **MR. ROBERT:** A great number of these things that the  
16 Government has mentioned either were dismissed -- did not  
17 result in a conviction. And I -- I object to the notion that  
18 anything -- any time somebody is arrested it means they're  
19 convicted. The idea that each of these encounters with law  
20 enforcement indicates the guilt of Mr. Lyman of some offense I  
21 think offends constitutional notions. I would ask your Honor  
22 to keep in mind, to consider that reality in this, and that  
23 those things of which he was charged and did -- which did not  
24 result in convictions should be considered, if at all, in a  
25 very limited way.

1                   **THE COURT:** All right. Well, although Mr. Lyman is  
2 charged with felon in possession of a firearm in this court,  
3 the Court is free to and obligated to consider the totality of  
4 the circumstances before it in determining whether there are  
5 any conditions that can be fashioned to adequately manage the  
6 risk of nonappearance and dangerousness that Mr. Lyman poses  
7 based on both the -- the circumstances surrounding the charges  
8 for which I found probable cause, as well as the criminal  
9 history that Mr. Lyman has.

10                  There are numerous factors indicating that Mr. Lyman  
11 poses a risk of nonappearance, not the least of which is the  
12 flight that there is some information that Mr. Lyman engaged in  
13 on October 21st of 2015. There is also a prior escape charge  
14 against Mr. Lyman, the, as I said, attempt to flee at the time  
15 of his arrest. There are -- there is at least some history of  
16 a failure to comply with previous court orders, as well as some  
17 indication of past poor performance under community  
18 supervision.

19                  There are also factors which indicate that Mr. Lyman  
20 poses a risk of danger to the community. The -- in considering  
21 the probable cause in this case, the Court was required to  
22 consider all of the circumstances, and although Mr. Lyman was  
23 not found at the time of his arrest to have possessed the  
24 firearm, the circumstances, the proximity of the firearm to the  
25 shooting and to the location that Mr. Lyman was eventually

1 found hiding in, the fact that Mr. Lyman was wearing a handcuff  
2 on his left arm all tend to indicate at least sufficient  
3 evidence to cause a person to objectively and reasonably  
4 suspect that Mr. Lyman was involved in the alleged incident  
5 involving the officer who was shot.

6                 The history that Mr. Lyman presents, the criminal  
7 history, conviction history, as well as the arrest history  
8 demonstrates that Mr. Lyman has had in his past multiple  
9 arrests and convictions involving violent behavior. There is a  
10 history of weapons-related offenses, including an arrest as  
11 recently as May 30th of this year for felon in possession of a  
12 firearm. The fact that there was a weapon involved in the  
13 instant offense all demonstrate that Mr. Lyman does pose a risk  
14 of danger to the community.

15                 Given the totality of the circumstances, I find that  
16 there are no set of conditions under which Mr. Lyman could be  
17 released that would reasonably assure the safety of the  
18 community or that he would not pose a continuing risk of  
19 flight. And for that reason, Mr. Lyman, I'm going to remand  
20 you to the custody of the United States Marshals Service  
21 pending your trial in this matter.

22                 **MR. SPEAKER:** Thank you, your Honor.

23                 **THE COURT:** Okay? All right. Is there anything  
24 further?

25                 **MR. WISHARD:** No, your Honor. Thank you.

MR. ROBERT: No, your Honor.

(Proceeding was adjourned at 10:50 a.m.)

CERTIFICATION

I certify that the foregoing is a correct transcript from the electronic sound recording of the proceedings in the above-entitled matter.
